

- *Network Music & Announcement*
- *Integrated calendar scheduler*
- *Interface with conventional systems*
- *Comprehensive mix and match components*

The MDMlink network audio system is designed to easily distribute audio in a complex system, replacing conventional analogue PA system. It comes with fully automated features with calendar scheduler functions to broadcast audio like background music and pre-recorded audio messages to multiple zones at the same time. Live announcements are also possible when a microphone is connected to the system. Automatic playback of emergency evacuation announcements can when triggered by external devices such as fire alarm, smoke detectors and temperature sensors in future versions .

Applications :

- *Shopping malls & complexes*
- *Airports, bus terminals & train stations*
- *Schools, colleges, universities*
- *Theme parks*
- *Museums*
- *Sports arena & stadiums*
- *Places of worships*
- *Multi dweller residential - condominium & apartments*

MAIN CONTROL SCREEN

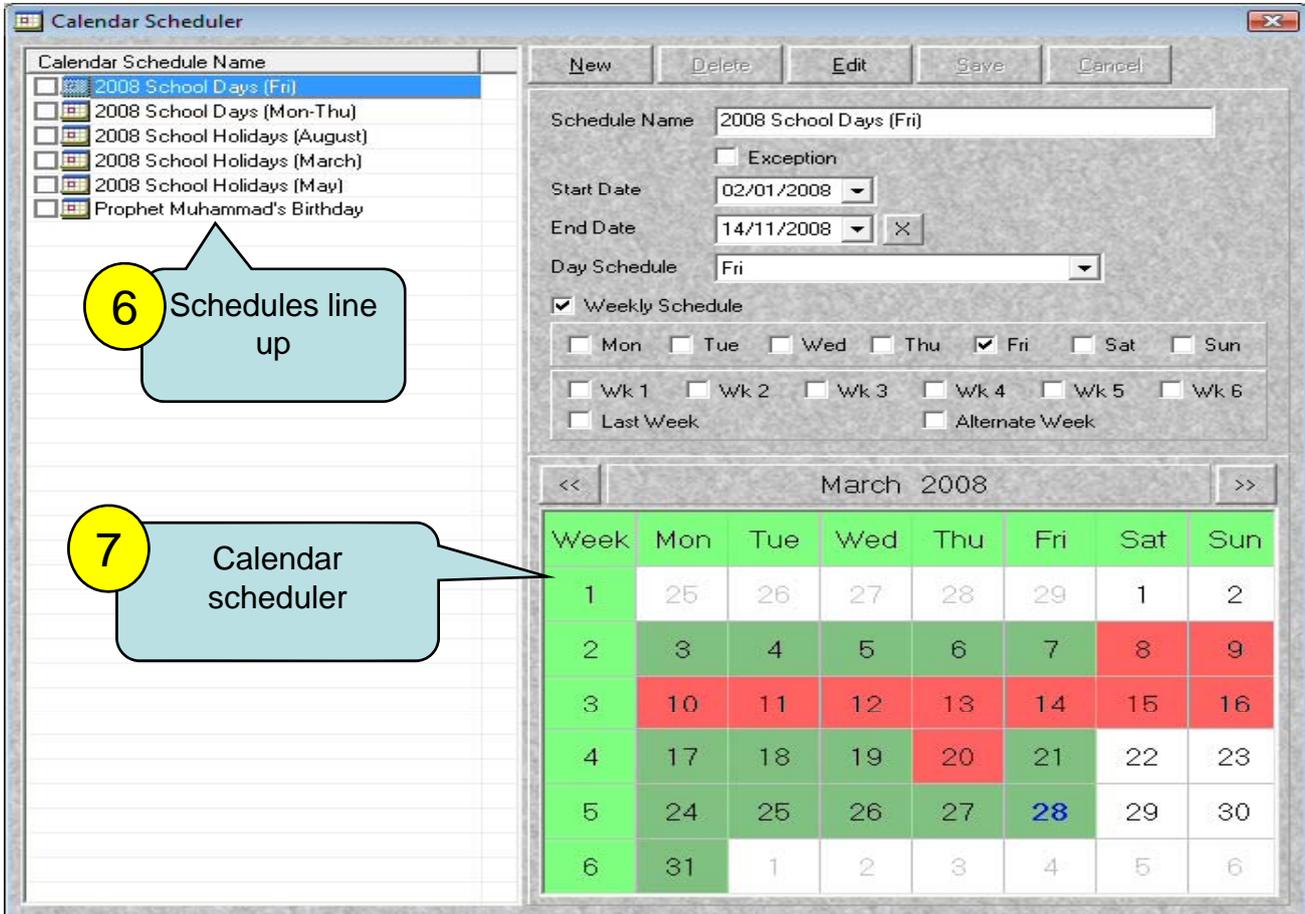

The screenshot shows the 'MP3 Streaming Server' application window. The interface is divided into three main sections: Music, Paging, and Emergency. The Music section has a 'Music' header and buttons for 'All Zones', 'Block A', 'Block B', and 'Block C'. The Paging section has a 'Paging' header and buttons for 'All Zones', 'Block A', 'Block B', and 'Block C'. The Emergency section has buttons for 'Fire', 'Smoke', 'Repeat', and 'Stop'. Five numbered callouts provide the following descriptions:

- 1** Plays background music to one or more zones
- 2** Sends microphone input to the selected zone
- 3** Plays selected emergency message to all zones
- 4** Play emergency message repeatedly
- 5** Stop playing emergency message

- 1** Background music zones selection
- 2** Microphone paging zones selection
- 3** Emergency evacuation message selection
- 4** Emergency evacuation message manual activation
- 5** Stop playback of evacuation message

CALENDAR SCHEDULER SCREEN

6 Schedules line up

7 Calendar scheduler

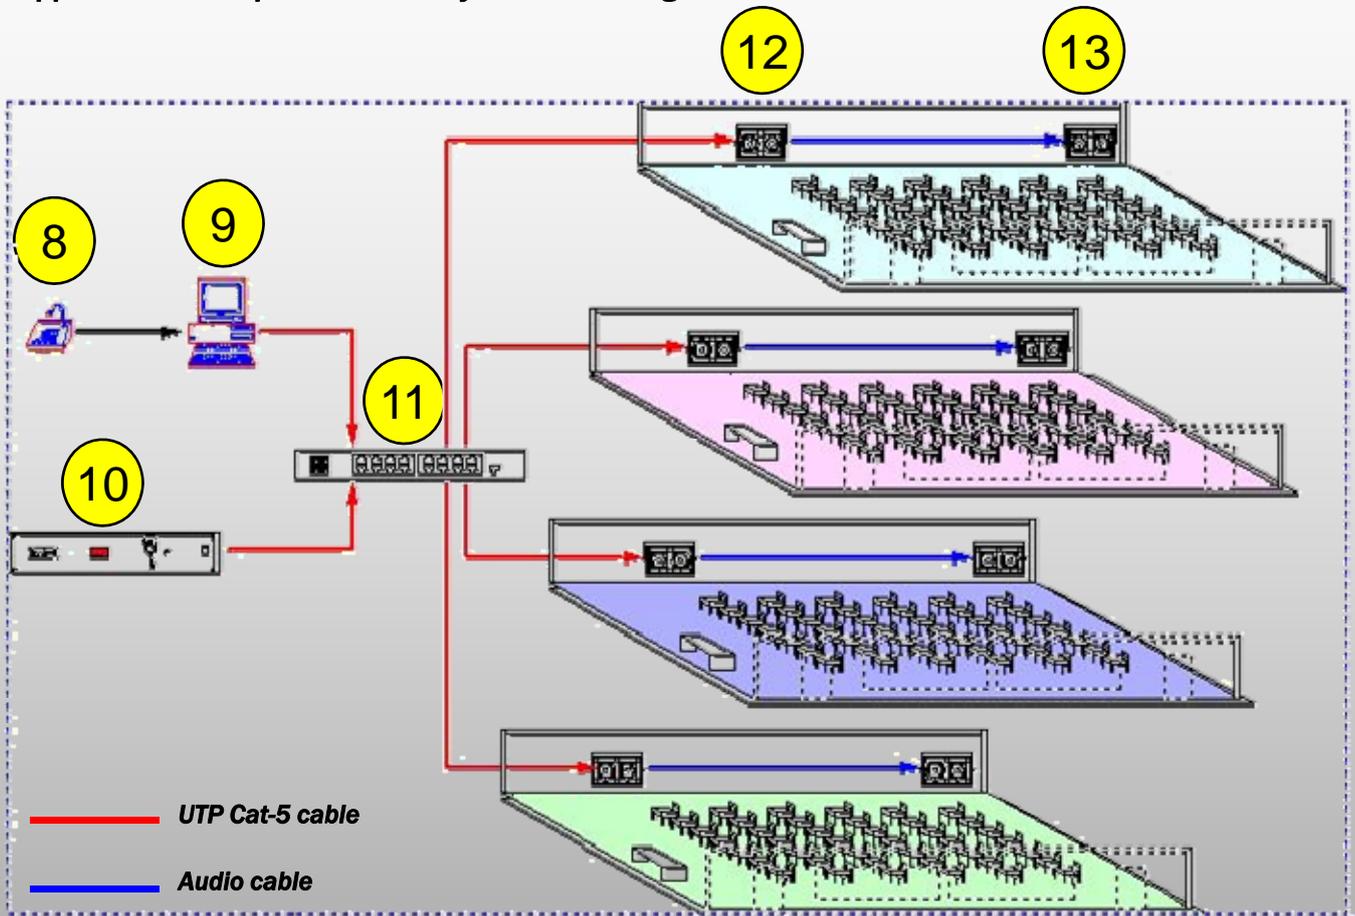

Week	Mon	Tue	Wed	Thu	Fri	Sat	Sun
1	25	26	27	28	29	1	2
2	3	4	5	6	7	8	9
3	10	11	12	13	14	15	16
4	17	18	19	20	21	22	23
5	24	25	26	27	28	29	30
6	31	1	2	3	4	5	6

6 Rules by which the daily schedules are applied to days of the calendar

7 Graphical representation of the actual schedule with the rules applied.

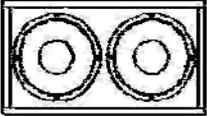

- White indicates no events scheduled
- Dark green indicates events scheduled for that day
- Red indicates exceptions to the original schedule such as public holidays.

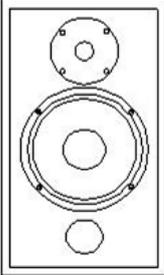

Application example of a 4-storey 4-zones college

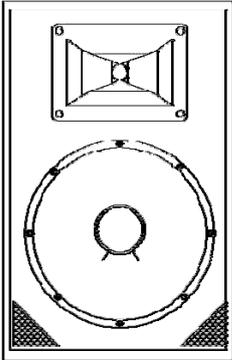

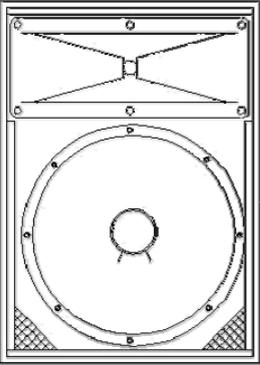

System components:

- 8 Desktop paging microphone
- 9 PC terminal with XA-4 system controller software
- 10 Fireman's emergency paging microphone
- 11 Standard 10/100 Mbits network switch
- 12 Vector-X PS-5022BX powered speaker
- 13 Vector-X PS-5021 Powered speaker
